

the pyramid. Be ready to have your mind BLOWN.

Top of pyramid, 8000-8,500 people who literally run the entire world.... Rothchild being one of them, my inclination is that the House of Saud and Soros are the other 2 active families, plus some others. These top people, have set up our financial institutions so that they literally receive 90% of the interest payed by the “feeders” us. They are Lucifarian “thats their God, Zionism”. You may not be religious but they are and they worship Lucifer, this includes satanic ritual abuse and sacrifice of children, include pedophilia.

The second tier of the pyramid is the BIS- Bank of International Settlement(owned by Rothchild), established in 1931 in the Netherlands. Headquarters is located in Switzerland, recognized by all counties to be the headquarters of the financial world; every Central Bank is a member of this elite club. They have a civil organization headquarters agreement (total immunity, they are above all worldly rules and literally NO ONE can touch them). They also have their own police force. This was the central location where the Nazis met up to to trade gold stolen from the Jews, people or states. BIS=all friends. The BIS gives instructions to all the other bottom levels of the pyramid, they are the headquarters of headquarters.

The third tier of the pyramid is the IMF/World Bank(under BIS). Also owned by the Rothchild family.

Their sole purpose is to enslave other countries. What they do is bail other countries out by creating debt in countries (while pretending to help countries in need). The debt is calculated by these two financial institutions carefully to insure the debt is never repaid. (Africa being one of the most enslaved counties) This tightens their hold/control on these countries and the countries pay them back by slave labor, and a total pillaging of their resources. They blackmail the heads of these countries by using children ex:child sex trafficking, organ harvesting, pedophilia. These countries are now slaves to the financial system, there is literally no escape.

The fourth tier is the central banks (all owned by the Rothschild family) ex: central Bank of London, Vatican Bank, and Federal reserve, just to name a few. The central bank of London manipulates the gold rate, everyday, which makes them a financial world player. They are

established as free states, so they have immunity from literally everyone. This includes all employees, of the banking system are also immune to punishment or oversight.

The fifth tier regular banks and the stock market, they are the the ones all this is done through, the debt system and interest rate. There used to be a death penalty for anyone caught charging an interest rate, it's still on the books but it's not followed. We as the bottom feeders are being stolen from by the debt and interest rate, let me explain. All the money in the world is based on debt. Go to the bank, sign a contract, digitally create debt on your side, out of no where, this is how they create all the money in the world(based on debt, economy based off debt).

Part 2: interest rates, example 5% interest rate was not created from your debt/contract, they have to take it from another contract. Stealing from Peter to pay Paul. This creates a shortage. That interest rate is automatically whisked from the bottom of the pyramid to the top of the pyramid (the wealthy elite). This stealing the interest rate from other contracts continues to increase the financial shortage. To fix this they keep piling on debt contract, after debt contract to cover the debt on debt on debt holes, they're creating. (Worldwide) this sucks the real value out of our money and resources. This is what causes the global national debt to continue to increase. Meanwhile the interest rate is adding capital to the very very top of the pyramid. Next to the interest rate is inflation and inflation is theft from us(the feeders)to them the elite of the elite, the top of the pyramid. It's the interest rate that's causing all the trouble.

The 6th in the pyramid tier is multinational corporations. These guys are responsible to maintain assets and/or operations. But in many cases are they are exploiting resources and employees. The Rothschilds own multinational corporations.

The 7th tier in the pyramid is Governments. Governments play along by paying the usage taxes, 13% of the tax dollars brought in, goes directly back to the privately owned banking system. Corruption at it's finest.

And the last tier of the pyramid is.... US. We are considered bottom feeders and do our part by paying 90% of the interest rate to the top 10% or the very top of the pyramid. That's how the Rothschilds have built their wealth to 500 trillion dollars. Oh the web they have woven. We must figure out how to reject the system they have woven to regain our freedom. - The Rothschilds take a giant step towards their goal of world domination when the second, "League of Nations," called the, "United Nations," was approved this year.

There are two Megabanks that offer loans to all the countries around the planet, the World Bank and the IMF. The first one is jointly owned by the world's top banking families, with the Rothschilds at the very top, while the second one is privately owned by the Rothschilds alone.

The one bank that rules them all, the "[Bank for International Settlement](#)," is — obviously — controlled by the Rothschilds and it is nicknamed the "Tower of Basel." [LINK](#)

Rothschild-Schiff-Warburg crime families bound by marriage

Dug up this find from 1916 NY Times. These three Zionist bankster crime families have been intermarrying for centuries. The Schiffs and Rothchilds actually shared a house together in 18th century Germany.... [LINK](#)
