 [redefininggod.com/understanding-the-nwo-strategy/](http://redefininggod.com/understanding-the-nwo-strategy/)

On this page, I'll offer a comprehensive overview of the New World Order's true nature and the globalist strategy in building and presenting it to the public. Since this is a rather big subject, I'll be constructing this entry in a modular way over time, so check back periodically to see what new material has been added.

**[Mod 1.6 – 21 April 2019: I have added a new section, “Knowing the Heroes and the Goats,” to the bottom]**

## The Two NWOs

---

**The key to understanding the globalists' strategy in implementing the New World Order is to understand that there are actually two NWOs: a Western-fronted *decoy* New World Order and a BRICS-fronted *real* New World Order.** Once you understand how and why the globalists created them and played them against each other, all of the confusing information floating about the mainstream and alternative media will start making sense.

### 1) *The Western-fronted DECOY NWO*

---

This evil, menacing NWO is supposedly being constructed by the US and the EU, but it has never really existed as anything but a media construct. It is much like the fake army of inflatable tanks that Patton “commanded” prior to the Normandy invasion; there is no real substance to it. It was created as a propaganda prop to serve as the “dark side” in the play the globalists are putting on for the public. They even gave it a dark-skinned figurehead for dramatic flair...

**When you listen to the many faux-truthers in the alternative press, it is this decoy NWO to which they point as they make their fearful predictions in order to create an emotional reaction within their viewers/readers/listeners. They portray it as an evil Zionist/Nazi/Neocon monster that is destroying the world and bringing humanity to the brink of World War 3. This is being done so the public will welcome the real NWO when it makes its move, defeats the decoy, and snatches peace from the jaws of war.**

Another function of the Western decoy is to serve as the scapegoat for all the damage that was done while the globalists were erecting the real NWO. By blaming the Western NWO for all the evils we've seen for the past 100+ years – and then getting rid of it — they are hoping the real NWO will start with a clean slate in the public eye.

**You will know you're listening to a controlled-opposition / faux-truther figure talk about the decoy NWO when he or she uses words with the prefix "uni-"**...

...such as "unilateral"...

## Paul Craig Roberts: "Washington Is Impotent To Prevent Armageddon"

Submitted by Tyler Durden on 06/20/2015 - 22:00

The West is impotent to prevent Armageddon. **It is up to Russia and China, and as Washington has framed the dilemma, Armageddon can only be prevented by Russia and China accepting vassal status.**

*This is not going to happen. Why would any self-respecting people submit to the corrupt West?* The hope is that Washington will cause its European vassals to rebel by pushing them too hard into conflict with Russia. If European politicians were to break from Washington's hegemony and instead represent European interests, Washington would be deprived of cover for its war crimes. **The breakdown of the neoconservative unipower model would then be apparent even to Washington, and the world would become a safer and better place.**

...(source)

Of course, you'll know they're talking about the decoy also when they use the terms "Western elite," "Nazis," "Zionists," and "Neocons" when identifying its builders.

## 2) *The BRICS-fronted REAL NWO*

The emerging United Nations-based, BRICS-fronted New World Order is the REAL NWO the globalists have been working towards since the last vestiges of the Old World Order fell after World War 2...

In his speech at the St Petersburg International Economic Forum, Putin identified the root cause of the rising tensions that have come to characterize relations between Russia and the West, responsible for hurtling the world toward another Cold War.

The hegemony long enjoyed by Washington, with the support of its allies, is now being challenged by a multipolar consensus around the world. In this **multipolar** world, every state enjoys parity, equal respect, and security under international law; and national sovereignty is returned to the status of an inalienable right, as enshrined in the UN Charter, rather than being a gift in the hands of the United States, the EU and NATO.

This being said, you don't have to take my word for all this. Look for yourself. Just visit the websites of the IMF and the BIS and enter the following words, one-at-a-time, into their search boxes: "multilateral," "multipolar," "unilateral," and "unipolar." If you do this and scan through the results you get, you'll see scores of internal speeches and papers talking about moving towards a multilateral/multipolar world and away from a unilateral/unipolar world. You'll find virtually nothing on their sites that talks about moving towards a global order ruled by a hegemonic US. That was never the globalists' real plan.

## An Overview of the Occulted Powers

---

Lurking behind the “Democratic Facade” (the so-called “democratic” governments that the public sees as the guiding hands in our world), are the Occulted Powers (OPs). The OPs are a criminal conglomerate of the local royal families throughout the world who are intermarried and/or interoperating with the global network of Jewish banker families. Under this worldwide royal/Jew “elite,” there are a variety of secret societies (such as the Freemasons) and criminal gangs (such as the Triads) who recruit useful “commoners” into their conspiracy and run societies at the street level.

As with any large gang of criminals, there is some degree of competition amongst the families as they compete for power, position and wealth within the syndicate, but they are all united in furthering their collective control and exploitation of the human race. They are the ones who have been pushing for ever more centralized control of humanity; they are the “globalists.”

An interesting thing about these OPs is that they have their own system of spirituality, which can most accurately be called “the Mystery School.” Whether the gang leaders at the very top actually believe in the spiritual mumbo jumbo of the Mystery School, though, is unclear. There may be some sort of “spiritual” force feeding them their religion, or they may have simply made it up as a control mechanism for their underlings. Whether it’s real or made up, though, it plays a central role in everything they do.

With this in mind, have a look at the Masonic art outside of the New Carrollton Federal Building in Lanham, Maryland...

...This sculpture depicts the Left Hand Path and the Right Hand Path of the OPs’ occultic spirituality. As you can see, the Left Hand (which sits on a black base) is pointing over to the open Right Hand (which

sits upon a white base). This reflects the OPs' practice of using the Left Hand (the "dark side," which brings about destruction and chaos) to scare people into the open, welcoming Right Hand (the "light side," which brings about construction and order).

**If you look upon the world situation now, you can see that the Anglo-American branch of the OPs are acting as the Left Hand (bringing terror, war, and theft that is destroying the existing world order and scaring humanity towards something new), and the BRICS branch of the OPs are acting as the Right Hand ("opposing" the actions of the Anglo-American axis and welcoming humanity into a "peaceful, fair" new world order that they are constructing).** Once you understand this basic idea of how the Two Hands work together to control the world, everything you see around you starts making sense.

## **The Old World Order, the Interim World Order, and the New World Order**

---

In attempting to understand the New World Order (NWO), many people become confused due to the intentionally misleading definition of the NWO offered by mainstream and alternative propaganda news sources. Before I go into why the news sources are doing this, though, let's learn the proper definition of the NWO straight from the globalists themselves.

In 1961, the globalists published a book titled Prospect for America: The Rockefeller Panel Reports. It was the (public-version) final report of a Rockefeller-funded study called the Special Studies Project, and it gives a sanitized, sugar-coated overview of the post-World War II plan to transition from the Old World Order to the New World Order.

The book offers this definition of the **Old World Order**...

## II. The Nature of the Problem

[for which the New World Order will be the solution]

A sound United States foreign economic policy must be based on accurate assessment of the world in which it must operate.

### DISINTEGRATION OF THE NINETEENTH-CENTURY POLITICAL SYSTEM

The central political fact of our time is the disintegration of the international system that dominated world affairs almost until the outbreak of World War II. Until the turn of the century, thirteen empires ruled the world. The neutrality of the Western Hemisphere—as of many regions today—depended on the existence of an equilibrium maintained by other states. This balance of power saw to it that most transformations were relatively minor; they did not threaten or seem to threaten the survival of the states composing the international system.

The nineteenth-century international system, for all its failings, provided order, rationalized administration, and arrangements for economic exchange. It supplied a form of answer to the increasing interdependence of societies. Europe was the world's principal manufacturer and the principal user of raw materials. She was the world's primary banker and source of capital. People, goods, and money moved with relative freedom from country to country; and Europe's banks financed the exchange of goods. The gold standard maintained by a central banking policy of the principal powers made for a kind of common currency.

The internal stresses of the imperial system began to be apparent in the nineteenth century and became conspicuous in 1914. World War I led to the collapse of the German, Austrian, Turkish, and Russian empires. By 1955, most of the remaining

imperialist systems had dissolved. The nineteenth-century system of empires, as a means of maintaining world order, arranging world economics, and settling international disputes, has collapsed.

So the 13 empires that ruled the world before they were brought down by the twin towers (World War I and World War II) were the Old World Order. And after their collapse, the world entered the period of chaos that precedes the arrival of the New World Order. This time of chaos has been governed by what I'll call the **Interim World Order, which is the current Bretton Woods system in which the US has played a central role due to its post-World War II military power, economic strength, and control of the global reserve currency.** It is important to note that the Interim World Order is NOT the New World Order; it was designed to last for a finite period of time (long enough to expend America's power and wealth to construct the NWO).

*Prospect for America* also offers the true definition of the **New World Order**...

The hoped-for result is peace in a world divided into smaller units, but organized and acting in common effort to permit and assist progress in economic, political, cultural, and spiritual life. Such a community must facilitate the freest and fullest access by everyone to the thinking of everyone. It must allow for the widest diversity of ideas, social structure, and forms of expression compatible with the functioning of the community. It would presumably consist of regional institutions under an international body of growing authority—combined so as to be able to deal with those problems that increasingly the separate nations will not be able to solve alone.

...which is a system of regional institutions operating under the supervision of an "international body of growing authority." I'm sure you can imagine which body that is...

## THE UNITED NATIONS

In addition to participating directly in the development of two regional groups, the United States has participated fully and from the start in the United Nations, the international organization that today holds out the reasonable hope of being able to take over more and more functions and to assume increasingly large responsibilities. In supporting the spirit and letter of the Charter, the United States has shown that it gives more than lip service to the indispensable world order that, as we have seen, is basic to the American consensus. The UN is proof of our conviction that problems which are of world-wide impact must be dealt with through institutions global in their scope. It should stand as one

The UN stands, finally, as a symbol of the world order that will one day be built. The United States has need of symbols

It is important to note that a United Nations-based New World Order is one that cannot be dominated by the US. The US is only 1 vote amongst 193 in the General Assembly and only 1 vote amongst 15 in the Security Council. Any perception of US leadership of the UN has arisen from America's post-World War II power and prestige and the temporary role of the US dollar as the world's primary reserve currency. That prestige is now gone, and the post-WWII power will be largely gone once the dollar is replaced by a renamed SDR as the world's primary reserve currency. For the UN Complex to rise as the central power, the superpowerful US that emerged from WWII had to be taken down, and *Prospect for America* was the blueprint for its downfall.

Getting back to the misleading definition of the NWO offered by globalist propaganda sources, they attempt to paint the NWO as an effort by the US (and their UK partners in crime) to erect a "unipolar" empire to control the world. This supposed attempt to build a US/UK-centric "Unipolar New World Order" has never existed. As *Prospect for America* states...

Let us try, then, to state briefly what this panel has in mind when it speaks of the opportunity before America of helping to shape a new world order. The phrase could easily be misunderstood. It could be taken as meaning a *Pax Americana*: an imperial ambition to call nations into being, to set them against one another in a balance of power, to divide and break up any too massive concert. We do not have that in mind. Nor do we have in mind, as could conceivably be supposed, spreading American ways of doing things across the globe, hoping to duplicate elsewhere the particular kind of life that now exists within the boundaries of the United States.

The supposed US-led “Unipolar New World Order” has never been anything but a golem dreamed up by the globalist propaganda masters to distract people’s attention away from the real NWO. While people are being programmed to look West for a scary monster that is closing in on them, the actual NWO is sneaking in from the East looking like a heroic knight in shining armor. And once it is publicly unveiled, the NWO will look like heaven... at first.

So when you see things in the news like this...

>>> *Russian President Vladimir Putin said on Saturday that his country would never accept a unipolar world.*

*Noting that there was one “undisputed” unipolar leadership trying to control the current world and force others to obey, Putin said Russia would never accept such attempts. <<<*

...realize it’s just the “knights in shining armor” doing their preparatory public relations work. All of the BRICS leaders are under firm OP control, as is evidenced by Putin’s open display of the symbols of Russia’s Romanov “royals”...

...and Chinese President Xi's association with his Illuminati handler/promoter, Robert Lawrence Kuhn...

## The NWO Strategy in Pictures

---

Getting humanity to accept, rather than resist, a New World Order is as simple as 1, 2, 3...

Step 1: You "release the hounds!"...

Step 2: You make sure everyone is aware that the hounds are coming for them...

Step 3: You show up to save them from the hounds, telling them, "Come with me if you want to live"...

For people to embrace the New World Order, they have to see it as the SOLUTION to their problems, not the SOURCE of their problems. And in order to get folks to see it that way, the globalists are having their Western minions create all kinds of mischief so their Eastern minions can step in and save everyone. So in...

**Step 1: The globalists have released the Western hounds on everyone, and they are mauling us with theft, oppression and war.**

**Step 2: They've had their faux-truther / controlled-opposition press screaming to everyone that the hounds are coming after us so we'll get scared and look for safety.**

**Step 3: They are having their BRICS minions step up and save us from the hounds. Welcome, saviors!**

And with that, we end up in the NWO. It's not so hard to understand, is it?

## **Don't Get Swept Away by the Coming "Truth Tsunami"**

---

Let's begin this section by reminding ourselves what a "limited hangout" is...

*"spy jargon for a favorite and frequently used gimmick of the clandestine professionals. When their veil of secrecy is shredded and they can no longer rely on a phony cover story to misinform the public, they resort to admitting—sometimes even volunteering—some of the truth while still managing to withhold the key and damaging facts in the case. The public, however, is usually so intrigued by the new information that it never thinks to pursue the matter further."*

When you think about it, the whole engineered truth movement has been a limited hangout operation. There have been "insiders" and "whistleblowers" (disinfo agents) coming out from under every rock to tell us a mixture of truth and falsehood, and the gist of their message is...

*"The evil West is out to get us, and Putin and the BRICS are the only ones who can stop them."*

**So the objective of the limited hangout operation known as the “Truth Movement” is to publicize facts that make the West look bad and the East look good. And in doing this, they are distracting people from “the key and damaging” fact that the BRICS are the ones actually bringing in the NWO.**

*But you ain't seen nothin' yet.*

The rising floodwaters of limited hangout truth will give way to a full-on tsunami next year. You will see all sorts of radical truth-telling, including stunning information about Obama's background and what really happened on 9/11. **When you see the mainstream media parroting all the explanations the globalists have been beta testing in the alternative media rabbit hole, you'll know we've reached the climax point.**

Here is something I wrote about their plans back in 2013...

>>> Let's begin with the Cliff's Notes version of the basic three-step process I see them trying to implement:

**Create a PROBLEM** – Through social engineering and the power of mass media, they have created dissatisfaction and dissociation with our old social forms and norms, including the traditional religions, in order to make us amenable to a new order of things. They've also sicced their dark dogs on us, who've been enthusiastically preparing a vast global police state grid, an economic and military conflagration, and a mass culling of the population.

**Generate a REACTION** – Through the engineered truth movement, they have advertised the actions of their dark minions in order to create fear in the population as well as a strong desire for some escape from what they have planned [here is a prime example]. They've also been disseminating vastly more accurate spiritual information through false-light channelings and New Age gurus for those weary of the old religions, but have blended in some misleading ideas that will be useful to them later.

**Offer a SOLUTION** – They'll allow their minions to go to the brink (or a bit past the brink) of unleashing their planned horrors upon the world so people will desperately grasp for any solution. The solution will then be offered by the BRICS nations in the form of a new precious metals-backed financial system and by a BRICS-allied "alien" power who will come onto the scene to stop the wars and address urgent needs. With a timely arrival to save the day, they are expecting the relieved public to warmly embrace their version of a "love and light" New World Order of (apparent) freedom, as well as the "aliens" and their "god," who will pose as Prime Creator/Source (but he/she/it IS NOT).

With the overview in place, let's now delve into some of the juicy details of **offering the solution...**

The dark minions and Homeland Security types who have been preparing the Great Culling and the global police state genuinely believe they'll get to slaughter lots of people, and they are orgasmically licking their chops in anticipation. They kinda remind me of the character "Psycho" from the movie Stripes...

*... "All I know is I finally get to kill somebody" ...*

Naturally, it is essential to the overall plan that actors on the lower levels of the power/awareness pyramid sincerely believe their roles and make concrete preparations for the Culling. The threat they pose would be unconvincing otherwise. Unfortunately for the planners, though, the general population is so distracted and drugged-out from other Cabal activities that they're having a hard time generating the desired awareness and fear. Unintended consequences are a bi\*ch, aren't they? Nonetheless, when the economy suddenly grinds to a halt, war actions have begun, and thugs in armored cars can be seen on the streets, that should provide enough of a wake-up slap to get the attention of the public.

Once a crescendo of awareness and fear has been reached, that's when the surprise will come. As if out of nowhere, military and economic forces will jump into action to bring a dead stop to the unfolding nightmare. Posing as a benevolent alliance, **they will commandeer all media to broadcast in-depth exposes of all that has been going on behind the scenes in our world. The public will be both shocked and jubilant to finally hear the truth, and it will wash over them like a tsunami. Unfortunately, this limited hangout truth tsunami is intended to carry them away towards an acceptance of the real New World Order. <<<**

Speaking of the "love and light" NWO, here is a preview of what to expect: The Multilateral/Multipolar New World Order will seem like heaven... at first.

So enjoy the big show, but don't forget that's what it is.

## Knowing the Heroes and the Goats

---

Here is something important to know about the real New World Order...

**The real BRICS-fronted NWO the globalists are bringing into being will be based on Austrian economics, not Communism. And it will in the beginning appear to be libertarian and respectful of national sovereignty.**

As I point out throughout this blog, the globalists have divided their minions into two teams: the Black Hats and the White Hats. And they're having their controlled alt-media paint the Black Hats as people who are trying to build an evil "Western" NWO. At the same time, they are portraying the White Hats as people who are trying to stop the evil and build a benevolent BRICS-fronted NWO instead. Needless to say, the White Hat "heroes" are scripted to win this conflict, and their victory will bring in the real New World Order the globalists have been planning all along.

That being said, here is a list of Black Hat people and things that will be defeated (on the left) and White Hat people and things that will triumph (on the right)...

The Goats / Decoys	The Heroes
Western, unilateral, "liberal" NWO socialists / communists / totalitarianists fiat money Establishment, neoliberal & leftist Democrats Neocon Republicans Establishment Republicans Satanists / Islamists Antichrists Barack Obama Zionist-Nazi-neocon-neolib "Deep State" Black Hats in the Pentagon and intel agencies The French Establishment The British Establishment The Bilderbergers The current "Western-dominated" UN Mainstream media	BRICS, multilateral, "sovereigntist" NWO libertarians / Austrian economists "sound" money Tulsi Gabbard Donald Trump, Rand Paul, Ron Paul Tea Party populists Christians, "true" Muslims, "true" Hindus, etc Messiahs / Avatars Vladimir Putin patriot-constitutionalist "Deep State" White Hats in the Pentagon and intel agencies Marine Le Pen Nigel Farage The BRICS The "reformed, stronger, fairer" UN Alternative media

Keep in mind that the people and things on both sides of this list work for the same bosses. They're simply assigned to play opposing roles on the public stage.

Armed with this list, you can look at any alt-media site and know if it's controlled or honest by simply noticing two things:

**1) If it portrays the conflict between the "evil" West and "benevolent" East as real (instead of what it really is: a fake stage play put on for public consumption)**

...and...

**2) if it bashes the people and things in the left column while promoting the people and things in the right column**

...the site is either globalist-aligned or run by someone who has fallen for their propaganda.
